## 8510 - **WELLNESS**

As required by law, the Board of Education establishes the following wellness policy for the Harper Creek Community Schools District.

The Board recognizes that good nutrition and regular physical activity affect the health and well-being of the District's students. Furthermore, research concludes that there is a positive correlation between a student's health and well-being and his/her ability to learn. Moreover, schools can play an important role in the developmental process by which students establish their health and nutrition habits by providing nutritious meals and snacks through the schools' meal programs, by supporting the development of good eating habits, and by promoting increased physical activity both in and out of school.

The Board, however, believes this effort to support the students' development of healthy behaviors and habits with regard to eating and exercise cannot be accomplished by the schools alone. It will be necessary for not only the staff, but also parents and the public at large to be involved in a community-wide effort to promote, support, and model such healthy behaviors and habits.

The Board sets the following goals in an effort to enable students to establish good health and nutrition habits:

A. With regard to nutrition education, the District shall:

1. Nutrition education shall be included in the Health curriculum so that instruction is sequential and standards-based and provides students with the knowledge, attitudes, and skills necessary to lead healthy lives.
2. Nutrition education shall be included in the sequential, comprehensive Health curriculum in accordance with the curriculum standards and benchmarks established by the State.
3. Nutrition education standards and benchmarks shall be age-appropriate and culturally relevant.

- B. With regard to nutrition promotion, any foods and beverages marketed or promoted to students on the school campus during the school day, will meet or exceed the USDA Smart Snacks in School nutrition standards.

Additionally, the District will promote healthy food and beverage choices for all students throughout the school campus, as well as encourage participation in school meal programs.

Furthermore, with the objectives of enhancing student health and well-being, and reducing childhood obesity, the following guidelines are established

1. In accordance with Policy 8500, entitled Food Service, the food service program shall comply with Federal and State regulations pertaining to the selection, preparation, consumption, and disposal of food and beverages, including but not limited to the USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards, as well as to the fiscal management of the program.
2. As set forth in Policy 8531, entitled Free and Reduced-Price Meals, the guidelines for reimbursable school meals are not less restrictive than the guidelines issued by the U.S. Department of Agriculture (USDA).
3. The sale of foods of minimal nutritional value in the food service area during the lunch period is prohibited.
4. The sale of foods and beverages to students that do not meet the USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards to be consumed on the school campus during the school day is prohibited.
5. All food items and beverages available for sale to students for consumption on the school campus (any area of property under the jurisdiction of the school that is accessible to students during the school day) between midnight and thirty (30) minutes after the close of the regular school day shall comply with the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards, including, but not limited to, competitive foods that are available to students a la carte or as entrees in the dining area (except entree items that were offered on the National School Lunch Program (NSLP) or School Breakfast Program (SBP) menu on the day of and the day after they are offered on the NSLP or SBP menu), as well as food items and beverages from vending machines, from school stores, or as fund-raisers, including those operated by student clubs and organizations, parent groups, or boosters clubs.
6. All foods offered on the school campus during the school day shall comply with the current USDA Dietary Guidelines for Americans, including competitive foods that are available to students a la carte in the dining area, as classroom snacks, or from vending machines.
7. All food and beverages that are provided, other than through sale, on the school campus during the school day (which may include classroom snacks, for classroom parties, and at holiday celebrations) shall comply with the current USDA Dietary Guidelines for Americans.
8. The District will establish nutrition standards for all foods and beverages provided, but not sold, to students during the school day (e.g., classroom parties, classroom snacks provided by parents, or other foods used as incentives).
9. The food service program will strive to be financially self-supporting; however, if it is necessary to subsidize the operation, it will not be through the sale of foods with minimal nutritious value.

10. The food service program shall be administered by a director who is properly qualified, certificated, licensed, or credentialed, according to current professional standards.
11. All food service personnel shall receive pre-service training in food service operations.
12. Continuing professional development shall be provided for all staff of the food service program.
13. The sale of foods and beverages to students that do not meet USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standard to be consumed on the school campus during the school day is prohibited.
14. All food items and beverages available for sale to students for consumption on the school campus (any area of property under the jurisdiction of the school that is accessible to students during the school day) between midnight and thirty (30) minutes after the close of the regular school day shall comply with current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards, including but not limited to, competitive foods that are available to students a la carte or as entrees in the dining area (except entrée items that were offered on the National School Lunch Program (NSLP) or School Breakfast Program (SBP) menu on the day of and the day after they are offered on the NSLP or SBP menu), as well as food items and beverages from vending machines, from school stores, or as fund-raisers, including those operated by student clubs and organizations, parent groups, or booster clubs.
15. All foods offered on the school campus during the school day shall comply with the current USDA Dietary Guidelines for Americans, including competitive foods that are available to students a la carte in the dining area, as classroom snacks, or from vending machines.
16. All food and beverages that are provided other than through sale, on the school campus during the school day (which may include classroom snacks, for classroom parties, and at holiday celebrations) shall comply with the current USDA Dietary Guidelines for Americans.

C. With regard to physical activity, the District shall:

**1. Physical Education**

- a. A sequential, comprehensive physical education program shall be provided for students in K-12 in accordance with the standards and benchmarks established by the State.
- b. The physical education curriculum shall provide sequential instruction related to the knowledge, attitudes, and skills necessary to participate in lifelong, health-enhancing physical activity.

**2. Physical Activity**

- a. Physical activity should not be employed as a form of discipline or punishment.
- b. Students, Pre-K through 12 shall have the opportunity to participate regularly in supervised physical activities, either organized or unstructured, intended to maintain physical fitness and to understand the short-and-long-term benefits of a physically active and health lifestyle.

- D. With regard to other school-based activities that promote student wellness, the District shall implement other evidence-based programs across the school setting to create environments that are conducive to healthy eating and physical activity and convey consistent health messages.

The Board designates the Superintendent as the individual charged with operational responsibility for verifying that the District meets the goals established in this policy.

The Superintendent shall appoint a District wellness committee that includes parents, students, representatives of the school food authority, educational staff (including health and physical education teachers), mental health and social services staff, school health professionals, members of the public and school administrators to oversee development, implementation, evaluation and periodic update of the wellness policy. The Wellness Committee shall be an ad hoc committee with members recruited and chosen annually.

The Wellness Committee shall be responsible for:

- A. assessment of the current school environment;
- B. review of the District's wellness policy;
- C. presentation of the wellness policy to the school board for approval;
- D. measurement of the implementation of the policy;
- E. recommendation for the revision of the policy, as necessary.

Before the end of each school year the Wellness Committee shall recommend to the Superintendent any revisions to the policy it deems necessary and/or appropriate. In its review, the Wellness Committee shall consider evidence-based strategies in determining its recommendations.

The Superintendent shall report annually to the Board on the progress of the Wellness Committee and on its evaluation of policy implementation and areas for improvement, including status of compliance by individual schools and progress made in attaining goals of policy.

The Superintendent is also responsible for informing the public, including parents, students and community members, on the content and implementation of this policy, and post the policy on the District's website, including the Wellness Committee's assessment of the implementation of the policy.

The District shall assess the Wellness Policy at least once every three (3) years on the extent to which schools in the District are in compliance with the District policy, the extent to which the District policy compares to model wellness policies, and the progress made in attaining the goals of the District Wellness Policy. The assessment shall be made available to the public on the School District's website.

The Board designates the Superintendent as the individual charged with operational responsibility for verifying that the District meets the goals established in this policy.
